---

Professional Experience

Marketing Operations Analyst | **Grimes King Foundation Inc.** | Boston, Massachusetts | **May 2025 – Present**

- Increased program sign-ups by **35%** in Q1 by mapping the full acquisition funnel (organic search to email nurture to re-targeting content), pinpointing the two highest-drop-off stages, and rewriting the content at each stage.
- Grew program registrations by **40%** and engagement by **50%** by tracking website, email, and outreach performance against weekly Key Performance Indicators (KPI) in SQL and Python and reporting results to stakeholders.
- Cut intake processing time by **40%** across **80+ applicants** by redesigning a manual, paper-based process into a digital, automated workflow using Python, PostgreSQL, and REST APIs.

Graduate Marketing & Analytics Consultant | **Babson College** | Wellesley, Massachusetts | **Sep 2023 – May 2025**

- Architected automated marketing attribution pipelines using Python, Django, PostgreSQL, and AWS across **12+ campaign datasets**, reducing weekly reporting latency by **45%**.
- Built containerized analytics dashboards and ETL workflows using Docker, Git, and CI/CD pipelines to track conversion metrics across **5 partner brand accounts**.
- Led campaign experimentation and A/B testing across paid search and lifecycle email channels, lifting qualified lead conversion by **28%** over **4 academic quarters**.

Marketing Lead (E-commerce & Amazon) | **Moksha Creations** | Bengaluru, India | **Feb 2022 – Aug 2023**

- Cut Amazon Sponsored Products cost per order by **28%** (ACOS from **35% to 25%**) and lifted CTR **24%** by consolidating 14–16 campaigns into 5–6 in two rounds over two weeks, as the monthly marketing budget scaled from **$5K to $20K**.

- Lifted the hero ASIN's unit session percentage from **1.2% to 3.4%** (**2.8x**) in 8 weeks by iteratively testing main image angles, benefit-led infographics, title copy, and A+ content, and pulling a variant after a 10-day dip.
- Grew monthly unit sales from **200 to 1,500** (**7.5x**) across Amazon, Flipkart, and the company site, running paid ads, listing optimization, and lifecycle email against weekly sales and ACOS targets.
- Grew engagement by **230%** by running paid Instagram and Facebook campaigns in Meta Ads Manager and managing the brand's social channels, alongside 3 social posts, 2 blogs, and 2 lifecycle emails a week.
- Built the company's first automated lifecycle email flows (replenishment, abandoned-cart, and post-purchase) in Mailchimp integrated with WooCommerce, reaching **40%** open rates on the replenishment flow.
- Grew organic search clicks from under 50 to **500** per month in 4–5 months by publishing 12 Search Engine Optimization (SEO) articles.

Growth Analyst | **Petropath Fluids India Pvt. Ltd.** | Bengaluru, India | **Jan 2021 – Jan 2022**

- Improved MQL-to-SQL conversion by **34%** by building a channel-level attribution model across **15+ B2B campaigns** (LinkedIn, email, website, paid search) to identify top-converting channels and reallocate budget.
- Generated **$3M+** in annual sales pipeline at a **35% average open rate** and **12% CTR** by tracking and optimizing performance across **10+ email campaigns** for sales and marketing teams.
- Engineered SQL reporting queries joining CRM touchpoints with campaign tables in HubSpot and Salesforce across **15+ B2B campaigns**, lifting pipeline visibility by **30%**.

Marketing & SEO Analytics Intern (Amazon) | **GAO Tek Inc.** | NYC, New York | **Oct 2019 – Dec 2020**

- Grew organic search traffic by **35%** by researching competitors and keywords, then auditing and rewriting Amazon SEO and listing copy (titles, bullets, backend keywords, A+ content) across a **500+ product catalog**.
- Improved click-through rates by **18%** by writing and iteratively testing Google Shopping and Amazon Sponsored Products ad headlines and analyzing results to identify top-performing copy.
- Automated weekly keyword rank and competitor pricing trackers in Excel and SQL across **500+ SKUs**, reducing manual reporting time by **25%**.

Projects

Marketing Blog: AI-Assisted Publishing Pipeline | **Personal Project, gbnmarketing.blogspot.com** | Austin, TX | **Apr 2026 – Present**

- Built an AI-assisted pipeline that turns an outline into a daily content calendar and drafts one marketing article per day with automated pre-publication quality gates.

Maxion: AI Social & Video Ad Creative Tool | **Personal Project** | Austin, TX | **Jun 2026 – Jul 2026**

- Built an AI tool in 2 weeks that generates social posts and short-form video ad creative by turning 13 top-performing ad prompts into a style library and orchestrating multiple AI providers.

Education

MBA, STEM in Business Analytics | **Babson College** | Wellesley, MA | **Sep 2023 – May 2025**
B.E. in Industrial Engineering and Management | **Technical University of Applied Sciences TH-WS** | **Oct 2016 – Dec 2020**
